

Script: Wonderful news! What is the Genie seminar?

The Genie seminar is an exciting new method for interactive **lifelong** education to acquire mental-spiritual wealth. Members meet in virtual groups to co-create out-of-the-box answers to life's important questions. For example, the BIGGEST Puzzle we currently face will determine the fate of our loved ones and humanity:

Why do we fill our world with fear, scarcity, hate, and war when we want and need HELP: the acronym or Happiness, Enough, Love, and Peace?

A genie seminar is a round table discussion guided by a facilitator/sponsor that meets regularly to exchange ideas and combine genius to seek original solutions to life's puzzles. In the usual format, an important issue, universal wisdom, or stressful event is presented by the group leader. Members share their personal response focusing on its relevance to their own life experience. Thus, emotion is added to intellect. The **process** of education is of equal importance to the **content**. More than wisdom, members experience group comradery, have fun, and give and receive emotional support in a safe environment.

The label "genie" in "genie seminar" is derived from "genie organ," the newer preferred name for the human part of our brain that has traditionally been called the "cerebral cortex." The word "cortex" conveys limited anatomical information; this part of our brain covers the animal portion. "Genie organ" awakens us to our newest organ's function to answer questions and solve puzzles. Most know the story of Aladdin's Lamp. One who frees the Genie imprisoned in the lamp is granted 3 wishes. When we free our genie organ from instinct, tradition, and human controllers we are granted unlimited wishes. With physical maturity and appropriate education, the genie organ is our source of creativity and self-mastery. In the last 2 million years our human brain has expanded dramatically in function and size ... from 1 to 3 ½ pounds; mostly our genie organ while the heart and other important organs have remained relatively the same.

The wonderful news is that the genie seminar provides us the means to solve the BIGGEST Puzzle. When Einstein discovered the famous formula that could unleash the energy of the sun, he accurately predicted tribes will proliferate weapons with ultimate destructive power (WUD) en masse to create human catastrophe. He didn't want to share the formula but reluctantly told our President when colleagues persuaded him what would happen if Hitler got there first. He then told us his most important insight, the answer to the BIGGEST Puzzle. *We must teach ourselves a newer way of thinking*¹ (ANWOT) if we choose to prevent species suicide. Einstein's solution is our best hope to make today's dreams tomorrows reality. Our puzzle solving genie organ can discover the knowledge and wisdom that leads to cooperation for shared benefits

¹ The unleashed power of the atom has changed everything save our modes of thinking and we thus drift toward unparalleled catastrophe ... a new type of thinking is essential if mankind is to survive and move toward higher levels. ... The release of atomic energy has not created a new problem. It has merely made more urgent the necessity of solving an existing one. The New York Times, May 25, 1946.

above competition to assert dominance demanded by our animal brain. Time is of the essence. The genie seminar offers the easiest, fastest, most enjoyable and effective means to bring universal knowledge and wisdom to our conscious awareness.

Our puzzle solving wish granting **genie organ** creates the **content**², the wisdom to end fear, scarcity, hate, and war by filling our world with the universal goals of happiness, enough, love, and peace. The **genie seminar** offers the **process** to rapidly educate our global population in the universal wisdom we require to survive and thrive. The genie seminar offers additional benefits equal in value to the content. Members share comradery, fun, belonging, and offer and receive emotional support lifelong. The joining of content and process elevates the capital of our creativity from our sophisticated machine-like animal brain to our puzzle solving wish granting genie organ for our transformation to a self-governing mental-spiritual humane becoming.

The Genie seminar functions somewhat like AA (Alcoholics Anonymous) with the addition that each meeting features one or more of the universal puzzles and the wisdom (“strens,” i.e. strength building wisdom, universal success principles) of thought leaders that teach what we require to survive and thrive. Members share their views, co-create, and verify better solutions to the topic. As a muscle grows in strength with each strand so we expand mental-spiritual power with each universal wisdom. We make ourselves mental-spiritual wealth millionaires by collecting enough strens. Persons rich in mental-spiritual wealth consistently enjoy a wonderful life, even when the world is unfair, whereas material-physical wealth millionaires commonly do not. Unlike material-physical wealth, there is no limit, no need to compete for mental-spiritual wealth. The more we create, the more we have to enrich the world.

The EC www.genieseminar.org website offers education in the simple guidelines for participating members. Members may want to sponsor and facilitate a genie seminar, enjoy introducing the topic and guiding the discussion. The EC provides additional support to seminar sponsors via video recordings and leader’s seminars. This and all EC websites are available to you and everyone, everywhere, anytime. You are invited to join Einstein’s World Peace Army and sustain a college level forever free course in the HELP skills that matter.

We are all born genetically preprogrammed over billions of years of trial-and-error learning with addictions to multiple adaptive behaviors. Einstein realized the “normal” way our animal brain processes information (“thinks”) is to divide data into two

² The “centerpeace” content features the 7plus2 Formula. 7 easy to learn Mind-freeing, Life-changing, World-saving word switches elevate the capital of our intentions from our animal brain to our puzzle-solving genie organ. 2 still secret love creation skills teach the modern version of the Golden Rule: *Love myself with the abundance that overflows to enrich the world.* Most persons experience the benefits within 30 days of practice.

“either/or” categories. It asks “What is good for me, my family, and my tribe, here and now (my lifetime)? “Emotion” (Energy for action) is a powerful force to embrace what is perceived as good and to oppose what is interpreted as harmful to *my* tribe. “*Either/or* thinking” explains why our history is described by a series of tribal wars. Addiction to tribal thinking has been the “normal” adaptive way species compete for scarce resources. In the absence of a better way to resolve scarcity, harmful win/lose confrontation to establish dominance has been required survival behavior.

When Einstein realized that weapons with ultimate destructive power (WUD) offer no second chance, he accurately predicted “war followed by cure” is suddenly obsolete. His most important insight was to recognize that addiction to *either/or* tribal thinking is innate in higher level species. *Either/or thought addiction* has become established since the advent of conscious awareness over a billion years, when tribes had to compete for scarce resources. This unrecognized thought addiction is more persistent than all other addictions. Two-category thinking divides data into good or bad, us or them, right or wrong, etc. It explains why our history is defined by its series of wars and awakens us to the root cause of the greatest immediate threat to humanity.

The proliferation of WUD by multiple tribes makes our “normal” adaptive necessary addiction to *either/or* thinking suddenly more fatal than cancer, AIDs, and the plague. Experience with *innate* addictions, such as the compulsion for power and sex (especially prominent in males), and *acquired* addictions, viz. the craving for heroin and money (the symbol for power), has awakened us to the difficulty of attaining freedom from mental slavery once it is established. A common characteristic of all addictions is that the afflicted passionately protects the addiction as necessary and resists any good Samaritan’s help. Emotion rules sanity. Continuous community support to prevent relapse is essential. If we choose to prevent the predictable species suicide, we must teach ourselves a newer way of processing data. We do this by education in a newer “*both...and*” way of thinking that redirects our attention to our similarities above our differences, that elevates the power of (unconditional) love above the love of power.

The genie seminar is suitable in homes, schools, religious and business settings, prisons, virtually via the Internet, and just about anywhere with limited or no cost. Learn more of the history of genie seminars at www.genieseminars.org or the FREE book at www.peace.academy, “*Ending our thought addiction before it kills you!*”, chapter 8, pp. 115-128. Recorded genie seminars are available for educational use [here](#). The EC envisions a worldwide genie seminar movement, as AA was made global by a few pioneers. Genie seminars can multiply rapidly when experienced participants (you? “seed” new meetings. Genie seminars provide a new model for free lifelong education in the essential skills that create a happy, loving, safe home for our loved ones.

Become a pioneer in creating Einstein's World Peace Army to make your already significant life REALLY wonderful.

Liberal (liberating) education frees the intelligent, commonsense, puzzle-solving genie organ from its initial slavery to our animal brain. Mental freedom and creativity is most pronounced in highly civilized tribes where creativity in the arts and sciences is encouraged. Dogmatic animal-brain education is most evident in authoritarian tribes where "education" is top down and verified by might above right. Historically, animals and people who were indoctrinated early in life remain limited in knowledge and wisdom; they passively submit to the instinct and the traditions of early programmers. Mentally freeing our puzzle solving Genie so that we may become our own person is among the highest priorities of our genie organ. Once freed from instinct, tradition, and human dictators, the Genie will grant wishes guided by universal common sense rather than tribal law. The moral-spiritual intentions of our genie organ, supported by universal wisdom, will be assigned a higher priority than the tribal intentions of the animal brain, which are supported by local (usually masculine) authority.

While our animal brain favors didactic education, our genie organ strives to create better solutions. The status quo is open to examination; innovation is welcomed. This newer form of education relies on universal, collective common sense above obedience to a designated tribal authority whose law is absolute. ANWOT encourages the joy of puzzle solving. Self-governance through personal and shared creativity replaces the dependency we all experience during our formative years. The "teacher" introduces a topic of universal concern to explore its meaning and welcomes new practical puzzle-solving alternatives. The HELP curriculum features the collected wisdom of world class thought leaders and the out-of-the-box solutions you co-create by shared experience. We evolve our meaning and purpose through shared insights.

The essential takeaway: Our brightest minds have created our new era of WUD where multiple tribes, the act of one individual, or a mechanical error could end civilization within minutes. Common sense wisdom enlightens us that a movement to establish genie seminars worldwide offering lifelong emotional support and education in four universal HELP skills (Happiness, Enough, Love and Peace) is an essential requirement for humanity to survive and thrive.

Act now. Go to www.peace.academy to collect your free study materials and guide. Go to www.genieseminar.org to learn about genie seminars and receive your invitation to participate in lifelong genie seminar education in the skills that make life wonderful. The essay, "Why is the genie seminar necessary?" offers greater insight into the need for urgent action.
